

Aspire Relationship Center turned 12 this year! Can you believe it? Thousands of youth and families in Citrus County have received Aspire's relationship education and support, setting them on a path to build healthier relationships and live better lives. With over 150,000 people (and counting!) in the county, we plan to expand and enhance our program reach and quality so that the entire county is equipped to flourish.

## A ROAD TO FLOURISHING

2011

### Aspire Pregnancy and Family Service

Founded as a pregnancy center to fill a major need in Citrus County

### The RIVER Project

Widened the scope of service to teach healthy relationships and risk avoidance to all youth

2013

### Aspire Relationship Center

Expanded mission to provide the education and support needed for youth and families to practice and experience healthier relationships

2015

### Substantial growth

Partnered with many organizations, expanded programming, and taught in every public secondary school in the county

2019

### COVID

Downsized. Temporarily transitioned programming to online format

2023

### Sustainable Growth

Taking steps to enhance program quality, reach, and impact as well as introduce new support services.

# WHAT WE'VE ACCOMPLISHED

## 12 Years of Relationship Education Experience

We boast 12 years of experience educating youth and families about healthy relationships.

## ALL Citrus County Public High Schools

We deliver youth programming in *every* CCSD public high school. We primarily deliver this programming through the HOPE classes.

## 1000+ Youth and Families Served Every Year

We reach at least 1000 youth and families annually. We provide relationship education and support to youth in classrooms and smaller support group settings and to significant adults through presentations and workshops.

## Research-Based and Engaging Curricula

We are trained in REAL Essentials, a highly-engaging, research-based curriculum. We personalize the curriculum for the youth and families in Citrus County. Ask someone you know who has experienced our programming.
